Fax (205) 926-5075
Email: BibbBOE@bibbed.org

August 1, 2016

Dear Parents/Guardians,

The Bibb County Board of Education will make available to parents, **free of charge**, a component of student records called INOW Home Portal. This program will allow you to access critical information about your child or children via the internet. You will be able to view grades, class schedules, attendance records, discipline reports, activity announcements, and notes from teachers. Although it is not required at this time that teachers enter homework assignments in INOW, if they do, you will also be able to view homework assignments. You will also be able to set up alerts for grades, discipline, and attendance so that you will be emailed when a class average falls below passing, a discipline incident is entered, or when your child is marked absent or tardy to school. You will have the option to set up the alerts you wish to receive.

Please complete the form and send it to the school or directly to the Board of Education to the attention of Linda Conklan. If you have students at different schools, you need only request the login from one school. All of your students' records will be accessible with one login.

We are excited to be offering this program and we hope that it will provide better communication between you and the schools. Please direct any questions you may have regarding the program to Linda Conklan, conklanl@bibbed.org, 205-926-9881 ext 6040.
