ABOUT US

Three Springs High School is a non-traditional high school primarily for 10th – 12th graders.

Mission:

Provide a small, efficient, and safe learning environment in which we:

- Provide opportunities to earn credits required for graduation.
- Teach skills and guidance needed to succeed beyond high school.
- Teach the skills and study habits necessary to meet standards on state assessments.
- Rely on a low student-teacher ratio allows for effective differentiated learning.

Core Values & Expectations:

- Our students work individually and in small-group settings to develop the skills and earn the credits required of a high school graduate.
- Regular attendance, reliable home-internet access, and the ability to complete academic work outside the school day are keys to success at Three Springs.
- Students who attend and who complete their work will succeed at TSHS.
- Our teachers are very invested in helping all students achieve their goals.
- Earn and Give Respect.
- We adhere to school expectations stated in the Cheney High School Handbook.
- Conferences with students, communication with parents, check-in/check-out, and schedule adjustments are some interventions we use to ensure a safe and productive learning atmosphere.

*Course Syllabus, Expectations, and Grades are determined by each TSHS teacher.
Monthly academic progress of each student is determined by the student and their TSHS
Consultant.*
