## RED RIBBON WEEK

By - Nicole Travis

Red Ribbon Week is October 23 - 27. Here are the dress up days!  
The art students are making giant posters to hang on both campuses.

**Monday: Give Drugs the Boot-Western Wear**

**Tuesday: Team Up Against Bullies-Team Jerseys**

**Wednesday: Red Out Day for Being Drug and Bully Free**

**Thursday: Sock it to Drugs-Crazy Sock Day**

**Friday: Drugs and Bullies Won't Find Us- Camo Day**

Does anyone wonder what "Red Ribbon Week" is or why it was created?

In response to the murder of DEA Agent Enrique Camarena, angered parents and youth in communities across the country began wearing red ribbons as a symbol of their commitment to raise awareness of the killing and destruction caused by drugs in America. In 1988, NFP sponsored the first National Red Ribbon Week.

## NURSE'S NOTES

By Shelbie T. and Natalee Y.

Our school nurse is

Whitney Lamance. She is a crazy-fun, but a kind, school-nurse. She answered a few of our questions such as How many years has she worked as a nurse? What are her favorite foods? and What were some of her jobs before becoming a nurse? Well time for some answers. First question-how many years has she been a nurse? She has been a nurse here in Boyd for two years but a nurse in general for six years. She was a paramedic for ten years prior to that. Her favorite food is Mexican food and she likes to travel and watch Yellowjacket football!

## Jacket Funnies

What do you call a fake noodle? (im-pasta)  
What do you call a happy cowboy? ( a jolly rancher)

## Helping Hands

By Hayden Dickerson Christian Moncada

This is reporter Christian and Hayden we have found other kids helping the devastated Houston get school supplies, so people over there can have things to live. Boyd Schools donated over \$2,000 in cash and a whole lot of supplies. We called this Helping Hands. Help Houston!!! What caused this is a hurricane called Harvey? Sometimes this kind of stuff happens, it's not their fault, so please donate.

## THE SCIENCE OF HURRICANES by Marli Lewis

A hurricane is a type of storm called a tropical cyclone. It forms over tropical or sub-tropical waters. When a storm's maximum sustained winds reach 74 miles per hour or higher, then it is called a Hurricane. Hurricanes are named in alphabetical order. They used to name hurricanes after only girls, but recently started naming them after boys too. Hurricanes have an eye or center of the storm. After the eye has passed over, then the winds on the other part of the storm are blowing in the opposite direction causing even more damage. Most of the damage from hurricanes is caused by the winds and the excessive amounts of rain and water. Hurricanes form in the ocean and can make landfall. Rarely does a hurricane travel very far into land as it begins to lose power once it hits dry land.

## LIVE WAX MUSEUM!!

**ON NOVEMBER 13, BIS 4TH AND 5TH GRADERS WILL PRESENT THEIR LIVE WAX MUSEUM. STUDENTS WILL PRESENT THEIR BIOGRAPHIES "IN PERSON." IT WILL BE A NIGHT OF FUN AND ADVENTURE. BE THERE!! HOPE TO SEE EVERYONE THERE. BIOGRAPHERS NEED TO BE AT THE SCHOOL BY 5:30PM.**
