

Google Sites

Themes, Colors and Fonts

- Google Sites give you a lot of options for customizing the appearance of your site
- When you click on the Gear icon () and go down to “Manage Site”, you can then access the screen to change your site appearance
- Once on Manage Site, look on the left side of the page and select “Themes, Colors and Fonts” (

 **FAMS Template**

Home Page Homework Resources District Homepage

These are descriptions of everything you can change on this page. Please note, as you change each setting, there will be a “Preview” page that displays toward the bottom of your screen, showing you what your page will look like after you hit the “Save” button.

- Entire Page
 - Background – changes the background color, or assigns an image to the background
 - Text – change the text on the entire page (font, color, size)
- Site Header
 - Background – color/image background
 - Title – font, color, size
- Content Area – change the settings for the individual boxes on your layout; assign an image or a color to the background
- Content Area Gadgets – Change the settings for the areas where your gadgets are deployed (for example, the Google Calendar on your “homework” page is a gadget)
- Sidebar gadgets – If you add a gadget to your sidebar, you can change the settings that appear for the appearance of the areas in which your gadgets are deployed
- Horizontal Navigation – If you want to change any of the settings in your horizontal navigation area (the tabs at the top of the page,) this is where you can do so.

When you are done making changes to your page, and you are pleased with what the Preview is showing you, be sure to click **SAVE** In the top left of the page before doing anything else.

SAVE

In the event that you make a mistake, click on your Gear while viewing your site and click “Revision History.” Pick a time you want to revert your site to and voila! Use this carefully, please!
