

**San Jacinto Unified School District
Technology Acceptable Use Agreement**

TERMS AND CONDITIONS

Please read the following carefully before signing this document.

Internet access is coordinated through a complex association of government agencies, and regional and state networks. In addition, the smooth operation of these networks relies upon the proper conduct of the end users who must adhere to strict guidelines. These guidelines are provided here so that you are aware of the responsibilities you are about to receive.

In general this requires efficient, ethical and legal utilization of the network resources. If a user violates any of these provisions, his or her account will be terminated and future access could possibly be denied. The signature(s) at the end of this document is (are) legally binding and indicates the party (parties) who signed has (have) read the terms and conditions carefully and understand(s) their significance. It is the responsibility of all San Jacinto Unified School District (SJUSD) employees, students, and others who use or access SJUSD's technological resources to understand and follow this Technology Acceptable Use Policy (AUP).

All access to Internet sites are routed through a "technology protection measure" designed to filter out material that is in violation of the District Internet policies. This filter will block most objectionable material, but users must be aware that the filter may miss some objectionable material and these sites should be reported immediately for review. A review process is available to block sites with objectionable material. There is also a review process to request the unblocking of sites that users believe contain material that has educational benefit.
