

9500 - Cooperation With Educational Agencies

The Board of Education recognizes the need for communication between this district and other districts and educational institutions that provide programs, training, and services not otherwise available to children residing in this district and with districts whose resident students are enrolled in programs in this district.

The Board acknowledges the responsibility for the education and conduct of the pupil in the school district in which he/she is enrolled.

The Board will attempt to meet periodically with the governing boards of other educational institutions that receive from this district a significant number of pupils or that send to this district a significant number of pupils.

In order to maintain cordial and constructive relationships with nonpublic schools, the Superintendent shall maintain liaison with the administration of all nonpublic schools located within this school district in order to be aware of any program changes that may be planned that could affect this district; determine how this district can advance the education of resident pupils attending parochial or private schools by the provision in these schools of special programs; and cooperate fully in the implementation of all state and federal programs administered by this district that benefit, in whole or in part, eligible pupils attending such nonpublic school.

The Board will expend public funds only in the discharge of its responsibility to provide a thorough and efficient education for pupils of this district, either through programs offered in this district or by payment of tuition for pupils assigned by the Board to programs outside this district. No public funds may be spent to reimburse tuition costs for pupils privately enrolled in a public or private program of education elsewhere and no donations of public funds shall be made to any private program.
