

Milton Town School District

Policy

G101: DISTANCE LEARNING PROGRAM

The **Milton Town School District** participates in the *Learning Network of Vermont (LNV)*, a network of schools that uses real-time interactive technology to provide expanded educational opportunities to students and staff, as well as other distance learning opportunities. These systems enable schools across the state and nation to share course offerings, professional development, ideas and information regardless of the participants' geographic location.

Distance Learning is to be used for educational purposes consistent with the mission and goals of the schools. The Board and administration will consider and address distance learning opportunities and issues when reviewing and developing policies, preparing budgets and planning for curriculum and professional development. The Superintendent is authorized to enter into agreements with other school units regarding Distance Learning.

All users of the *Learning Network of Vermont* and participants in all distance learning programs are expected to comply with applicable Board policies, procedures and school rules. Violations of Board policies, procedures and school rules may result in loss of privileges to participate in distance learning programs, as well as disciplinary sanctions under the applicable policy or rule.

The Superintendent is responsible for implementing the distance learning program, although specific responsibilities may be delegated to administrators or other appropriate staff at the Superintendent's discretion.
