

State Assessment Exemption Form

We encourage all students to take the state assessments. These assessments give us data for each individual student, data for our school(s), and data for our district. Performance on these state assessments is tied to our accreditation.

***Exempting out of any PSAT/SAT assessments may impede your college admittance process.**

If you choose to exempt your student from state assessments this form is required to have on file by the date specified by the building principal. By signing and returning you are choosing to exempt your student out of the state assessments for the current school year.

Furthermore, exempting from any state English Language Arts and/or Math assessments you agree that your student will attend the Jump Start program. Information concerning the Jump Start program is available in the main office as well as online. If you have questions, please call the building principal at.
