### BOARD OF EDUCATION STANDING COMMITTEES

POLICY #9130

The purpose of establishing standing committees is to enable Board members with specific skills to become more active in the problem-solving and decision-making process. To this end, committees will be called upon by the Superintendent or committee chairperson as needed and will be viewed as resource persons who will be available for consultations, recommendations and to carry out the assigned responsibility of their specific committees.

Appointments to each committee will be made by the Board President, taking into consideration volunteers, individual preference and areas of expertise. Appointments shall be made within one month of the organization meeting. Appointments to vacancies may be made at the discretion of the President at any time.

**Changes to appointments can be made only upon approval of the majority of the full Board.**

The President will also establish from time to time special projects committees that will function only while the business for which the committee was established exists.

Chairperson: Each committee will be convened by a chairperson who is appointed by the President and shall report for the committee. The chairperson will select alternates on an "as needed" basis. The chairperson should inform the President or Vice President as necessary, as well as the Superintendent, of all committee meetings.

The Superintendent or designee, through the committee chairpersons, is responsible for establishing or coordinating meeting dates and locations.

Committee chairpersons, through the Superintendent, may request committee meeting attendance by the Board President or any appropriate school official.

Purpose: Committees are required to review all matters within the domain of their defined responsibility and report to the full Board of their findings, recommendations or alternatives.

No committee is to take unilateral action unless the full Board is cognizant of the matter and has given authority to a committee to act within certain specific bounds.

Normal committees' functioning will consist of periodic meetings to complete assigned functions, plan upcoming work, coordinate intercommittee work, formulate policy and/or procedure, or carry on any other tasks as may be assigned by the Board president or deemed necessary and appropriate.

Meetings: No more than four Board members will attend a committee meeting unless it is properly constituted as an emergency meeting or a meeting open to the public with notification as required by the Open Public Meetings Act.
