

The EL Education Core Practices

Our core practices address five key dimensions of life in school.

Curriculum

Our approach to curriculum makes standards come alive for students by connecting learning to real-world issues and needs. Academically rigorous learning expeditions, case studies, projects, fieldwork, and service learning inspire students to think and work as professionals do, contributing high-quality work to authentic audiences beyond the classroom. Our schools ensure that all students have access to a rigorous college preparatory curriculum, and regularly analyze the curriculum to check alignment to standards and opportunities for all students to meet those standards.

Instruction

Our classrooms are alive with discovery, inquiry, critical thinking, problem-solving, and collaboration. Teachers talk less. Students talk and think more. Lessons have explicit purpose, guided by learning targets for which students take ownership and responsibility. In all subject areas, teachers differentiate instruction and maintain high expectations in order to bring out the best in all students and cultivate a culture of high achievement.

Assessment

Our leaders, teachers, and students embrace the power of student-engaged assessment practices to build student ownership of learning, focus students on reaching standards-based learning targets, and drive achievement. This approach to assessment is key to ensuring that schools achieve educational equity. Students continually assess and improve the quality of their work through the use of models, reflection, critique, rubrics, and work with experts. Staff members engage in ongoing data inquiry and analysis, examining everything from patterns in student work to results from formal assessments, disaggregating data by groups of students to recognize and address gaps in achievement.

Culture and Character

Our schools build cultures of respect, responsibility, courage, and kindness, where students and adults are committed to quality work and citizenship. School structures and traditions such as crew, community meetings, exhibitions of student work, and service learning ensure that every student is known and cared for, that student leadership is nurtured, and that contributions to the school and world are celebrated. Students and staff are supported to do better work and be better people than they thought possible.

Leadership

Our school leaders build a cohesive school vision focused on student achievement and continuous improvement, and they align all activities in the school to that vision. Leaders use data wisely, boldly shape school structures to best meet student needs, celebrate joy in learning, and build a school-wide culture of trust and collaboration. Leadership in our schools goes beyond a single person or team—it is a role and expectation for all.
