

# Separating Fact from Fiction in the Admissions Process

**Tuesday, March 20<sup>th</sup>  
at 6:30 p.m.**

In the Edison High School Cafeteria

Our guest speaker, **Paul Kanarek**, is one of America's foremost experts on all things admissions and testing. He has been featured in virtually every major publication and news outlet, and – most importantly – has a firm grasp on what is true and what is myth about admissions today. You will learn about the strengths and potential pitfalls of UC attendance, the latest data for highly selective colleges, the link between financial aid and non-economic factors, the way to approach community college attendance and what to consider as you put together your college list. Since we have no idea whether we will ever again be able to separate Mr. Kanarek from his global speaking tour, please do come to this evening.
