

Parent Resource Center

The Parent Resource Center is designed to empower parents to assist their children in maximizing their full potential. At the present time, the center's resources are mainly focused on instruction for students in grades kindergarten through 5. Academic games and activities with focus on the Georgia Common Core Standards are available for check-out, along with tips for parents, list of available tutors with contact information, great websites along with the use of two in-house computers. Our center is new and remains a work in progress as we gather needed resources for our families and students.

Our Parent Resource Center is located in the school's media center. At the present time, center hours are Monday through Friday, 8:00 a.m. to 4:00 p.m. We encourage our parents to visit the new center and take advantage of the resources!
