

# Fort Loudoun Middle School

Traffic Flow Instructions for the school:

Whether entering from Mulberry/Hwy 11 or Steekee Road, parents need to enter the drop-off line at the upper entrance. The drop-off line is two lanes wide with all traffic moving in the same direction. Cars are not allowed behind the school. Buses drop off and pick up behind the school.

Morning and afternoon bus hall will be held in the cafeteria. Again, car riders will be picked up at the front entrance of the building with the same traffic flow as morning drop-off. Bus riders will be picked up in the back of the building.

In the afternoons, cars cannot pull into the pick-up zone and park until the dismissal bell rings. Cars coming from either direction should wait in the main drive or park in a parking space until the dismissal bell sounds.

We appreciate your patience as we establish new routines in our new location.

Respectfully,  
Christie Amburn, Principal
