

# COURSE SELECTIONS FOR 2018/2019

- Students will select courses online through Plus Portals. Students cannot access the course selection form from a parent account – they must use their own account.
- Students will utilize the Endorsements worksheet and unofficial transcript to select classes. Freshmen & Sophomores also receive their 4-year plans. CLHS requires that all students graduate with the Multi-disciplinary Endorsement. The Endorsements worksheet outlines all of the credits a student needs for graduation and the optional endorsements that are available. Students will utilize their elective credits to earn additional endorsements. \*Any credit course beyond the Multi-disciplinary Endorsement requirements earns elective credit.
- How to access an unofficial transcript:
  - Students log into their PlusPortals
  - Click on “E-Locker” in the blue portion toward the top of the page
  - Click on “E-Portfolio”
  - Click on the blue arrow on the right which will download the transcript
  - Click on “Open” at the bottom of the page to open the document
- Students must choose 8 courses per semester.
- Course descriptions and course prerequisites are provided under the “i” symbol located to the right of each course. The math chart provided below is included in the instructions given to students. This chart will help them identify the math course they should take in the upcoming year.
- Students must have a cumulative 3.5 GPA or higher to apply for upper-level courses. These forms are being mailed home to those who are qualified. The deadline is on the form and must be turned into the Guidance Office.
- Students need to maintain balance in their schedules. Students are not allowed to drop classes past the initial drop date. Students who commit to upper-level courses must remain in them all year.
- Students should not click on the ‘submit’ button until they are ready to submit their course selections. They will not be able to retrieve their form to make changes.
