*“Simply stated, Union Academy is an educator’s dream place to work! Passionate educators are encouraged and allowed to be creative and innovative in all practices. The school educates about 1,400 students in grades K-12 and is located on two campuses. Its small environment allows every employee to feel as if he/she plays an important and personal role in every child’s education. The three guiding principles – challenge, character, and community – are practiced all day, every day at UA. It is a positive, comfortable and fulfilling place to work.”*

**Jim Zorn, UA High School Principal**

*“I attended Union Academy from grades 8-12. As a student, I loved the school and the teachers so much that I decided early on that I wanted to become a teacher so that I could someday teach at UA. And here I am today teaching 7th grade English at my alma mater. It is so wonderful to rejoin my school family. I feel like I’m home and I love it!”*

**Christen Hargett, UA 7th grade teacher**

*“It is a true privilege to serve as the Headmaster at Union Academy. We have the most dedicated, creative and talented teachers in the world! Personnel in every school likes to think of themselves as being a school family. I can attest that we don’t just “think” of ourselves as a family, we live it. At Union Academy we are a true family made up of school personnel, parents and students where every member of our family is valued and feels a sense of belonging.”*

**Dr. Ann Walters, Headmaster**
