

Medical Lake High School College and Career Ready Program

Why? The intent of CCR is to:

1. Connect **ALL** students to a trusted adult/adviser in the school
2. Guide students through a series of lessons, activities, and presentations that will assist them in determining a path for their future
3. Prepare and present a High School & Beyond Plan during a Student-Led Conference in the spring of 2018

Washington State requires students to develop a **High School and Beyond Plan that addresses how they will meet high school graduation requirements and their post-secondary intentions. A student's plan, which is revised as he/she moves through high school, includes the necessary classes for a two or four-year postsecondary pathway, a technical college, an apprenticeship program, a certificate program, the workforce or military training.

Where and When?

- CCR will take place every other Friday during the regular school day
- Students will meet in their adviser's classroom (or designated location) between 4th period and lunch (11:48 a.m. to 12:28 p.m.).

What does this look like?

Students will be exposed to classroom lessons, group presentations and activities via a new software program called "**Career Cruising**." Students will have their own account, specific to their grade level, allowing them to take career interest inventories, complete an ability profiler, build a resume, start an activity log, and map out a course plan for high school. They can also search various educational pathways, schools, financial aid options and much more.

Earning Credit?

Students will have the opportunity to earn a .25 elective credit each year of CCR through sufficient attendance, completion of various assignments and activities, and by facilitating their own Student-Led Conference in the spring. A student who successfully completes each year of CCR has the potential to earn one elective credit which is the equivalent of two full semesters.

- CCR course grades will be **Pass/Fail** and transcribed at the end of each school year.
- For the Class of 2018 only, seniors will have the opportunity to earn .5 elective credit.
- **CCR is a graduation requirement for all seniors**

Running Start Students

Running Start Students not in attendance during the designated CCR time will be assigned an adviser and will work with that adviser to complete their CCR requirements independently.
