

What is GradPoint

GradPoint is the most intuitive, and comprehensive digital learning solution for grades 9-12 available today. With GradPoint, you can reduce drop-out rates, meet on-time graduation targets, engage learners with proven, media-rich lessons and motivate students when they need it most.

Success lies ahead.

With GradPoint, a more effective and enriching learning experience is provided with proven courses from Pearson and Florida Virtual School delivered on a platform that helps do more with infrastructure.

Success is every student on point.

- Rigorous, engaging curriculum from industry leaders and names you trust
- Multiple learning paths to personalize learning for each student
- Award-winning, intuitive platform designed specifically to meet needs of K-12
- Superior services and support from a team of functional and technical experts to ensure success

GradPoint is the solution for:

- Blended and virtual learning
- Credit/Course recovery
- Dropout prevention/recovery
- Remediation
- Response to Intervention
- Alternative education
- Special education
- Credit accrual

Belleville High School

GradPoint will be offered to Belleville High School students to utilize during their lunch periods, after school, or at home. The courses will run in six week cycles to help students with the remediation they need in their course work. This program will help with the goal of reducing failures and raising student achievement.
