

SHEPHERD ISD ENROLLING WITH STOPit TO EMPOWER AND PROTECT STUDENTS

STOPit App empowers students to stand up against bullying

Shepherd ISD has enrolled with [STOPit](#), the leading technology platform for schools that deters and controls harmful or inappropriate conduct. STOPit empowers students with an easy app to safely and anonymously report anything of concern to school officials – from cyberbullying to threats of violence or self-harm. STOPit empowers students to stand up for themselves and others while giving our schools the insight we need to keep students safe.

“With the advancement in technology and ease of use of the app for cell phones, our students now have an even easier way to report bullying” - Rick Hartley

With STOPit, students can submit anonymous reports containing text, photos, or video. Administrators are then able to manage incidents in a backend management system called DOCUMENTit. DOCUMENTit provides efficient and powerful investigative tools to our staff, including the ability to message with the reporter, which will allow us to address issues instantly.

STOPit does more than just help schools address incidents and mitigate risk. STOPit will also help us go beyond reacting to bullying and inappropriate behavior, and instead start deterring it. As young people continue to engage more with technology every day, we are taking a proactive step to empower our students to become Upstanders in our community in the way that they feel most comfortable. We believe our adoption of STOPit is an important step in our continued effort to provide a positive school climate and a safe learning environment for our students.

Our STOPit program launch began on campuses during the week of September 5th.

About STOPit:

STOPit is the leading technology company providing a comprehensive software platform that mitigates, deters and controls bullying, including cyberbullying, harassment and other harmful or inappropriate conduct. The STOPit platform is available to schools, universities, businesses and governments both in the United States and around the world. The STOPit mobile app is a simple, fast and powerful tool which empowers individuals to protect themselves and stand up for others online, on social media, in the classroom or in the office. DOCUMENTit, a robust incident management system, empowers administrators and management to get in front of issues to mitigate risk and adhere to the ever evolving compliance landscape.
