Has your school implemented the following components of the district’s local wellness policy?

* Nutrition education and promotion activities
* Physical activity opportunities
* Nutrition standards for all foods and beverages available on each school campus during the school day that meet or exceed the USDA’s requirements for school meals and competitive foods and beverages
* Marketing and advertising of only those foods and beverages that meet the USDA Smart Snacks in School nutrition standards on school campus.
* Other school-based activities that promote student wellness
* Permit parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the general public to participate in the development, implementation, and review and update of the local wellness policy. Regular reporting on

Yes, our school has implemented all of these components.

Are students provided at least 20 minutes of recess during each school day, and do teachers or recess monitors encourage students to be active?

3 Yes.

Do all foods and beverages served and offered to students during the school day meet or exceed the USDA's Smart Snacks in School nutrition standards? This includes snacks that are not part of a federally reimbursed child nutrition program, birthday parties, holiday parties and school-wide celebrations.

All foods & beverages served and offered during the school day meet the USDA's Smart Snacks in School nutrition standards, or we do not serve or offer additional foods and beverages at our school.
Do all foods and beverages sold to students during the extended school day meet or exceed the USDA's Smart Snacks in School nutrition standards? This includes vending machines, school stores and snack or food carts.

All foods & beverages sold during the extended school day meet or exceed the USDA's Smart Snacks in School nutrition standards.

Nutrition Standards for Foods
https://schools.healthiergeneration.org/5216

Nutrition Standards for Beverages
https://schools.healthiergeneration.org/5218

Most foods and beverages sold during the extended school day meet or exceed the USDA's Smart Snacks in School nutrition standards.
Do all foods and beverages served and offered to students during the extended school day meet or exceed the USDA's Smart Snacks in School nutrition standards? This includes snacks that are not part of a federally reimbursed child nutrition program, birthday parties, holiday parties and school-wide celebrations.

All foods & beverages served and offered during the extended school day meet the USDA's Smart Snacks in School nutrition standards, or we do not sell foods and beverages during the extended school day at our school.
Are indoor and outdoor physical activity facilities open to students, their families, and the community outside school hours?

Making facilities open and available to students, their families, and the community outside of school hours can be conducted as a regular practice or through a formal, written joint or shared use agreement. A joint use or shared use agreement is a formal agreement between a school or school district and another public or private entity to jointly use either school facilities or community facilities to share costs and responsibilities.

Does your school or district have written health and safety policies that include the following components?

* Rationale for developing and implementing the policy
* Population for which the policy applies (e.g., students, staff, visitors)
* Where the policy applies (e.g., on or off school property)
* When the policy applies
* Programs supported by the policy
* Designation of person(s) responsible (e.g., school administrator(s), teachers) for implementing the policy
* Designation of person(s) responsible (e.g., school administrator(s), teachers) for enforcing the policy
* Communication procedures (e.g., through staff meetings, professional development, website, staff handbook) of the policy
* Procedures for addressing policy infractions
* Definitions of terms
Does your school communicate its school or district health and safety policies in all of the following ways?

* Signs (e.g., tobacco-free, weapon-free)
* Staff member orientation
* Staff meetings
* Student orientation
* Student handbook
* Staff handbook or listserv
* Employee contracts
* Parent handbook, newsletters, or listserv
* Policies included in contracts with outside vendors and organizations that use school facilities
* Announcements at school events
* School-sponsored meetings
* Community meetings
* School or district website

116 and visitors
Does your school foster a positive psychosocial school climate using all of the following practices?

* Communicate clear expectations for learning and behavior to students, and share those expectations with families to encourage them to reinforce them at home
* Foster pro-social behavior by engaging students in activities such as peer tutoring, classroom chores, service learning, and teacher assistance
* Foster an appreciation of student and family diversity and respect for all families' cultural beliefs and practices
* Hold school-wide activities that give students opportunities to learn about diverse cultures and experiences
* Use instructional materials that reflect the diversity of your student body
* Challenge staff members to greet each student by name
* Expect staff members to encourage students to ask for help when needed
* Expect staff members to take timely action to solve

Does your school offer, to all students who need them, a variety of services designed to help students overcome barriers to learning?
Does your school provide a broad variety of student enrichment experiences that are accessible to all students?

Does your school implement a standard precautions policy that includes all of the following components?

* Providing and requiring the use of latex or poly gloves and eye wear when exposed to blood and body fluids
* Providing a hard-sided container for contaminated needles/sharps in offices where syringes may be used
* Appropriate disinfecting of surface areas and clean-up materials after exposure to blood and body fluid
* Instructions for appropriate disposal of contaminated materials (e.g., dressings, clothing, tissue/towels)
* Procedures and follow-up for staff members who are exposed to blood
Have all teachers received professional development on meeting the diverse cognitive, emotional, and social needs of children and adolescents in the past two years?
Has the school established a climate, in each of the following ways, that prevents harassment and bullying?

* Staff members, students and parents are informed through a variety of mechanisms of policies defining harassment and bullying and explaining the consequences of such behaviors
* Disciplinary policies are fairly and consistently implemented among all student groups
* Staff members and students treat each other with respect and courtesy
* Fair play and nonviolence is emphasized on the playground, on the school bus, and at school events
* Students are encouraged to report harassment or bullying, including through anonymous reporting methods
* Support is provided for victims of harassment or bullying

Do staff members actively supervise students, in each of the following ways, everywhere on campus (e.g., classroom, lunchroom, playground, locker room, hallways, bathroom, and school bus)?

* Observing students and being available to talk to students before, during, and after school
* Anticipating and effectively responding to unsafe situations
* Discouraging pushing and bullying
* Promoting prosocial behaviors, such as cooperation, conflict resolution, and helping others

School Health and Safety Policies

Does your school have a written crisis response plan that includes preparedness, response, and recovery elements? Is the plan practiced regularly and updated as necessary?
Are your physical activity facilities adequate in all of the following ways?

* Both indoor and outdoor spaces can be used by physical education classes, intramural programs or physical activity clubs, and interscholastic sports programs
* Indoor facilities exist so that physical education classes do not have to be canceled due to weather extremes (e.g., rain or temperatures extremes)
* In physical education classes, all students can be physically active without overcrowding or safety risks
* Facilities are accessible for persons with disabilities
* For physical activity clubs and interscholastic sports, all interested students can sign up and participate without overcrowding or safety risks
Does your school limit food and beverage advertising and promotion (e.g., contests or coupons) on school property to foods and beverages that meet or exceed the USDA’s Smart Snacks in School nutrition standards?

This may include, but is not limited to, marketing and branding in cafeterias, hallways, common spaces, classrooms, staff lounges or school stores; and on snack or food carts, vending machine exteriors, display racks, food or beverage cups or containers, coolers, athletic equipment and sports bags. Examples may include, but are not limited to, in-school media, signs, posters and stickers.

Does all teachers schedule time for students to wash their hands before meals and snacks?

Do students receive health education instruction in all grades?

2 In most grades.
Does your health education curriculum address all of these topics on physical activity?

* The physical, psychological, or social benefits of physical activity
* How physical activity can contribute to a healthy weight
* How physical activity can contribute to the academic learning process
* How an inactive lifestyle contributes to chronic disease
* Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
* Differences between physical activity, exercise, and fitness
* Phases of an exercise session, that is, warm up, workout, and cool down
* Overcoming barriers to physical activity
* Decreasing sedentary activities, such as TV watching
* Opportunities for physical activity in the community
* Preventing injury during physical activity
* Weather-related safety, for example, avoiding heat stroke, hypothermia, and sunburn while physically active
* Social influences on physical activity, including media,

3 Yes, addresses all of these topics.
Does your health education curriculum address all of these essential topics on healthy eating?

* The relationship between healthy eating and personal health and disease prevention
* Food guidance from MyPlate http://www.choosemyplate.gov/
* Reading and using food labels
* Eating a variety of foods every day
* Balancing food intake and physical activity
* Eating more fruits, vegetables and whole grain products
* Choosing foods that are low in fat, saturated fat, and cholesterol and do not contain transfat
* Choosing foods and beverages with little added sugars
* Eating more calcium-rich foods
* Preparing healthy meals and snacks
* Risks of unhealthy weight control practices
* Accepting body size differences
* Food safety
* Importance of water consumption
* Importance of eating breakfast
* Making healthy choices when eating at restaurants
* Social influences on healthy eating, including media, family, peers,

2 Addresses most of these topics.
Do all teachers of health education use an age-appropriate sequential health education curriculum that is consistent with state or national standards for health education?

Consider using CDC's Health Education Curriculum Analysis Tool (HECAT), http://www.cdc.gov/healthyouth/HECAT/, which is designed to help school districts and schools conduct a clear, complete, and consistent analysis of written health education curriculum. HECAT results can help districts and schools enhance, develop, or select appropriate and effective health education curricula. The HECAT assesses how consistent curricula are with national standards and can assist users in determining if the curriculum being analyzed is sequential.

Professional development

Health in classroom Have all teachers received professional development in classroom management techniques in the past two years?

Physical Education and Other Physical Activity

Minutes of physical education classes should be spread over at least three days, with daily physical education preferable.

Do all students in each grade receive physical education for at least 150 minutes per week throughout the school year?

3 Yes.
Do all teachers of physical education use an age-appropriate, sequential physical education curriculum that is consistent with national or state standards for physical education (see national standards below)?

Consider using CDC’s Physical Education Curriculum Analysis Tool (PECAT), http://www.cdc.gov/healthyyouth/PECAT/ which is designed to help school districts and schools conduct a clear, complete, and consistent analysis of written physical education curriculum. PECAT results can help districts and schools enhance, develop, or select appropriate and effective physical education curricula for delivering high-quality physical education in schools. The PECAT assesses how consistent curricula are with national standards and can assist users in determining if the curriculum being analyzed is sequential.

| Physical Education | Sequential | The PECAT assesses how consistent curricula are with national standards and can assist users in determining if the curriculum being analyzed is sequential. | 3 Yes. |
Yes, all 3 components of the PYFP are integrated.
Does the physical education program use three or more methods to promote student participation in a variety of community physical activity options?

* Class discussions
* Bulletin boards
* Public address announcements
* Guest speakers who promote community programs
* Take-home flyers
* Homework assignments
* Newsletter articles

3 Yes, through three or more methods.
Does the physical education program consistently use all or most of the following practices as appropriate to include students with special health care needs?

* Encouraging active participation; modifying type, intensity, and length of activity if indicated in Individualized Education Plans, asthma action plans, or 504 plans
* Offering adapted physical education classes
* Using modified equipment and facilities
* Ensuring that students with chronic health conditions are fully participating in physical activity as appropriate and when able
* Monitoring signs and symptoms of chronic health conditions
* Encouraging students to carry and self-administer their medications (including pre-medicating and/or responding to asthma symptoms) in the gym and on playing fields; assisting students who do not self-carry
* Encouraging students to actively engage in self-monitoring (i.e., using a peak flow meter, recognizing triggers) in the gym

Yes, the physical education program uses all or most of these instructional practices consistently.
Our school promotes or supports walking and bicycling to school in one to two of these ways.
<table>
<thead>
<tr>
<th>Physical Education and Other Physical Activity Programs</th>

Does the physical education program implement and enforce all of the following safety practices?

* Practice active supervision
* Encourage pro-social behaviors
* Use protective clothing and safety gear that is appropriate to child's size and in good shape
* Use safe, age-appropriate equipment
* Minimize exposure to sun (including through use of sunscreen), smog, and extreme temperatures
* Use infection control practices for handling blood and other body fluids
* Monitor the environment to reduce exposure to potential allergens or irritants (e.g., pollen, bees, strong odors)
Playgrounds meet safety standards or exceed recommended safety standards for design, installation, and maintenance, in all of the following ways:

* Using recommended safety surfaces under playground equipment
* Using developmentally-appropriate equipment designed with spaces and angles that preclude entrapment
* Designating boundaries around equipment (e.g., swings) so that students on foot are unlikely to be struck
* Separating playgrounds from motor vehicle and bicycle traffic
* Maintaining equipment for safe use and removing unsafe equipment

Please disregard any standard that is not relevant for your physical education and other physical activity programs or intramural programs or physical activity clubs.

Do both boys and girls participate in school-sponsored intramural programs or physical activity clubs?
Does the school ensure that spaces and facilities for physical activity meet or exceed recommended safety standards for design, installation, and maintenance, in the following ways?

* Regular inspection and repair of indoor and outdoor playing surfaces, including those on playgrounds and sports fields
* Regular inspection and repair of physical activity equipment such as balls, jump ropes, nets, cardiovascular machines, weights, and weight lifting machines
* Padded goal posts and gym walls
* Breakaway bases for baseball and softball
* Securely anchored portable soccer goals that are stored in a locked facility when not in use
* Bleachers that minimize the risk for falls
* Slip-resistant surfaces near swimming pool use
* Pools designed, constructed, and retrofitted to eliminate entrapment use

Nutrition Services

Breakfast and lunch programs

Does your school offer school meals (breakfast and lunch) programs that are fully accessible to all students?

Yes.
Variety of foods in school meals

Do school meals include a variety of foods that meet the following criteria?

LUNCH

* Go beyond the National School Lunch Program requirements to offer one additional serving per week from any of the 3 vegetable subgroups (dark green, red and orange, dry beans and peas)
* Offer a different fruit every day of the week during lunch (100% fruit juice can be counted as a fruit only once per week)
* Offer fresh fruit at least 1 day per week
* Offer foods that address the cultural practices of the student population
* Offer an alternative entrée option at least one time per week that is legume based, reduced fat dairy or fish based (including tuna)
* Offer at least 3 different types of whole grain-rich food items each week

Yes, meets six to eight of these criteria for variety.
Promote healthy food and beverage choices using the following techniques?

* Whole fruit options are displayed in attractive bowls or baskets (instead of chaffing dishes or hotel pans)
* Sliced or cut fruit is available daily
* Daily fruit options are displayed in a location in the line of sight and reach of students
* All available vegetable options have been given creative or descriptive names
* Daily vegetable options are bundled into all grab and go meals available to students
* All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily vegetable options with their meal
* White milk is placed in front of other beverages in all coolers
* Alternative entrée options (salad bar, yogurt parfaits, etc.) are highlighted on posters or signs within all service and dining areas

Healthy food and beverage choices are promoted through five to nine of these 2 techniques.

Do nutrition services staff members use three or more of the following methods to collaborate with teachers to reinforce nutrition education lessons taught in the classroom?

* Participate in design and implementation of nutrition education programs
* Display educational and informational materials that reinforce classroom lessons
* Provide food for use in classroom nutrition education lessons
* Provide ideas for classroom nutrition education lessons
* Teach lessons or give presentations to students
* Provide cafeteria tours for classes

Collaboration between nutrition services staff members and teachers

3 Yes, use three or more methods.

Do students have at least 10 minutes to eat breakfast and at least 20 minutes to eat lunch, counting from the time they are seated?

Adequate time to eat school meals

3 Yes. (Note: If the school does not have a breakfast program, but does provide at least 20 minutes for lunch, you can select this answer.)
Is your school implementing any Farm to School activities?

* Local and/or regional products are incorporated into the school meal program
* Messages about agriculture and nutrition are reinforced throughout the learning environment
* School hosts a school garden
* School hosts field trips to local farms
* School utilizes promotions or special events, such as tastings, that highlight the local/regional products

Yes, our school is implementing four to five of these activities.
Does the school food service consistently follow practices that ensure healthier foods are purchased and prepared for service?

* Spoon solid fat from chilled meat and poultry broth before use
* Use specifications requiring lower sodium content in prepared foods such as hamburgers, pizza, chicken nuggets, etc.; and canned products such as vegetables, sauces, etc.
* Use specifications requiring lower added sugar content in prepared foods such as whole grain cold cereals or cereal bars (e.g., candy or yogurt coated); breakfast items such as pancakes or waffles (e.g., infused with syrup); and canned products such as fruit (e.g., packed heavy syrup).
* Roast, bake or broil meat rather than fry it
* Prepare vegetables by steaming or baking
* Prepare vegetables using little or no fat
* Cook with nonstick spray or pan liners rather than with grease or oil
* Use frozen vegetables or low-sodium canned vegetables instead of
Does the school provide students with a clean, safe, and pleasant cafeteria, according to the following criteria?

* Physical structure (e.g., walls, floor covering) does not need repairs
* Tables and chairs are not damaged and are of appropriate size for all students
* Seating is not overcrowded (i.e., never more than 100% of capacity)
* Rules for safe behavior (e.g., no running, no throwing food or utensils) are enforced
* Tables and floors are cleaned between lunch periods or shifts
* Age-appropriate decorations are used
* Appropriate practices are used to prevent excessive noise levels (e.g., no whistles)
* Smells are pleasant and not offensive
* Appropriate eating devices are available when needed for students with special health care needs
Are school nutrition service staff members and cafeteria monitors (e.g., teachers, aides) trained to respond quickly and effectively to the following types of food emergencies?

* Choking
* Natural disasters (e.g., electrical outages affecting refrigeration)
* Medical emergencies (e.g., severe food allergy reactions, diabetic reactions)
* Attempts to introduce biological or other hazards into the food supply
* Situations that require students or others to shelter in the school

Preparedness for food

Nutrition Services 411 emergencies
Does your school have a full-time, registered school nurse responsible for health services all day, every day? Are an adequate number of full-time school nurses provided, based on the recommended ratio of at least one nurse for every 750 students?

<table>
<thead>
<tr>
<th>Health services</th>
<th>provided by a full-time nurse 501</th>

</tr>
</thead>
</table>
Does the school nurse or other health services provider promote the health and safety of students and their families, through classroom activities and otherwise, on each of these topics?

- Promoting physical activity
- Promoting healthy eating
- Preventing tobacco use
- Quitting tobacco use
- Preventing unintentional injuries
- Preventing violence and suicide
- Managing asthma
- Preventing HIV, other STD, and unintended pregnancy

3 Yes, addresses all eight of these topics.
Does the school nurse or other health services provider collaborate with other school staff members to promote student health and safety in at least six of the following ways?

* Developing plans to address student health problems (e.g., individual health care plans, individual education plans, 504 plans, school team plans)
* Providing professional development
* Developing policy
* Identifying, revising or developing curricula or units/lessons
* Developing and implementing school-wide and classroom activities
* Developing School Improvement Plans
* Establishing communication systems with other school staff

Does your school implement a systematic approach (including the following components) for referring students, as needed, to appropriate school- or community-based health services?

* Contact parents of students identified as potentially needing additional health services and recommend that the students be evaluated by their primary health care provider or specialist.
* Contact parents of students without a primary health care provider and give information about child health insurance programs and primary care providers.
* Referral information is distributed widely (e.g., through flyers, brochures, website, student handbook, health education class) so that students, staff, and families can learn about school and community services without having to contact school staff.
* Staff members are given clear guidance on referring students to school counseling, psychological and social services.
* Referral forms are easy for staff members to access,
| Health Services | | 506 Information | | Student health information prior to school entry and every year thereafter? Is all pertinent information communicated in writing to all appropriate staff members? |

| Health Services | | 507 Physician | | Consulting school health physician who assists with your school health programs? |
Does your school have a plan to address food allergy management and prevention (e.g., Food Allergy Management and Prevention Plan) which includes the following priorities needed to manage food allergies in the school setting?

* Ensure daily management of food allergies for individual children (e.g., identifying children with food allergies, a plan to manage and reduce risks of food allergy reactions)
* Prepare for food allergy emergencies (e.g., easy to use communication systems, easy access to epinephrine auto-injectors, plans for contacting emergency medical services, identification of staff roles in emergencies)
* Provide professional development on food allergies for staff (e.g., general training on food allergies for all staff, in-depth training for staff who have frequent contact with children with food allergies, specialized training for staff responsible for managing children with food allergies).
Does your school have access to a full-time counselor, social worker, and psychologist for providing counseling, psychological, and social services? Is an adequate number of these staff members provided based on the following recommended ratios?

- One counselor for every 250 students
- One social worker for every 400 students
- One psychologist for every 1,000 students

Counseling, psychological, and social services provided by a full-time counselor, social worker, and psychologist.
Does the counseling, psychological, or social services provider promote the emotional, behavioral, and mental health of and provide treatment to students and families in the following ways?

* 1-on-1 counseling/sessions
* Small group counseling/sessions
* Classroom-based health promotion and prevention
* School-wide health promotion and prevention
Does the counseling, psychological, or social services provider collaborate with other school staff members to promote student health and safety in at least six of the following ways?

### Family & Community Involvement

**Family and community involvement in school decision making?**

This question only applies to decision making around health and wellness addressing areas outlined in the Healthy Schools Program.

Families and community members are offered opportunities to provide input into school decision making but are not otherwise engaged.

---

**Student and family involvement in the school meal decision**

Do students and family members have opportunities to provide both suggestions for school meals and other foods and beverages sold, served and offered on school campus and feedback on the meal programs and other foods and beverages sold, served and offered on school campus?

Yes, both students and family members have opportunities to provide suggestions and feedback.

---

*Family & Community Involvement: 801,* Family and community involvement in school decision making.

*Student and Community Involvement: 802,* Student and family involvement in the school meal decision.
Family & Community Involvement

Family and community access to school facilities

Do family and community members have access to indoor and outdoor school facilities outside school hours to participate in or conduct health promotion and education programs?

Community members have very limited access to school facilities, or there is access to indoor or outdoor facilities but not to both.

Family & Communication

Communication with families

Does your school communicate with all families in a culturally- and linguistically-appropriate way, using a variety of communication methods, about school-sponsored activities and opportunities to participate in school health programs and other community-based health and safety programs?

Family & Community Involvement

Communication with families

Does your school communicate with all families in a culturally- and linguistically-appropriate way, using a variety of communication methods, about school-sponsored activities and opportunities to participate in school health programs and other community-based health and safety programs?
Does your school's family education program address all of the following effective parenting strategies?

* Praising and rewarding desirable behavior
* Staying actively involved with children in fun activities
* Making time to listen and talk with their children
* Setting expectations for appropriate behavior and academic performance
* Sharing parental values
* Communicating with children about health-related risks and behaviors
* Making a small number of clear, understandable rules designed to increase level of self-management (e.g., routine household chores, homework, time spent using TV and computer)
* Consistently enforcing family rules with consequences (e.g., an additional chore, restricting TV/computer use for the evening)
* Monitoring children's daily activities (knowing child's whereabouts and friends)
* Modeling nonviolent responses to conflict
* Modeling healthy behaviors
* Emphasizing the importance of children getting enough...
Family & Community Involvement

Does your school or district have a formal process to recruit, train, and involve family and other community members as volunteers to enrich school health and safety programs?

Family Involvement in learning at home

Does your school provide opportunities for family members to reinforce learning at home?
