Ocean Institute
April 13th. Watch out for field trip slips!

Deadlines:

FAFSA Application March 1st 2018

Fact of the Month

According to TreeHugger, using recycled paper for one days worth of the New York Times Sunday Edition would save approximately *75,000 trees.*

Scholarships

Cal Poly Pomona

On January 23, the Environmental Careers visited the Cal Poly Pomona Campus where they were able to visit the Urban and Regional Planning building where they sat in a lecture and were able to interact with the professor. They were also able to interact with students who were majoring in that course or something similar; students were able to ask them questions on why they chose that major and what were the benefits associated with that major. After the lecture the students were able to visit the rest of the campus and experience what defines the college life.

Wings and Things Incentive

On Friday, December 15th, students with good grades were rewarded with wings and fries cooked by the ECA teachers. They had the option of eating scrumptious-buffalo chicken wings or toothsome-spicy wings with fries. It is strongly encouraged for students to continue to earn good grades for not only incentives, but also to boost their grade point average (G.P.A.). Shout out to Mr. Bravo for taking the lead and bringing the mini fryer!

Environmental Careers Academy

Available:

1) *Questbridge:*
apply to
Questbridge for
an opportunity to
stay at Stanford
this summer to
work on college
apps. Juniors only.
Due: March 28th

2) *ECA students:*
there is an art
contest with the
West Water
Basin, to
illustrate what
"Water is Life"
means to you.
Please go to F203
for an application,
due March 16,
2018. Winners
receive an IPAD.

Teacher of the Month

For the month of February we would like to recognize Mr. Choi, who is known as the ECA physics teacher. Mr. Choi is an amazing funny teacher who has opened up the minds of students on the world of physics. Students enjoy his class not only because of his sense of humor, but of his ways of teaching that have helped them pass his class. Mr. Choi, we are honored and pleased to have you be a part of ECA and we wouldn't want it any other way.

Progress on ECA Projects on Campus

The 11th and 12th ECA students have been working hard on their projects. One group crafted and painted benches to place on the baseball field. They also donated some to the tennis class for the students to sit on. Another group built raised garden beds for the special education students to plant seeds. They also planted citrus trees and a shed for them to use. The rest of the groups are working on beautifying the baseball field are along the fence through placing borders, plants and fence tape. The projects are expected to be completed by March 30th.

Student of the Month

For the month of February we are honored to recognize **Luis Pasillas** for his hard work in the ECA Baseball Field Project. Luis has put so much effort and dedication to making it look nice and presentable not only for the academy but for those who see it as they pass by. He has done such an amazing work in his area and over the past months his ideas have made the project look beautiful. We are honored and pleased to have him part of the academy.

I have read the ECA November Newsletter.
