SPRING 12th Grade Immunization letter

Dear Parent/Guardian,

Ohio's immunization law requires that all students entering 12th grade must have received two (2) doses of the MCV4 (meningococcal serogroup A,C,W and Y) vaccine (for Meningitis).

Please note:

- The second dose must be given on or after the 16th birthday
- There must be at least 8 weeks between the 1st and 2nd dose
- If the first dose was given on or after the 16th birthday, a second dose is **not** required.

Your current 11th grade child will need to show documentation of having received these immunizations by the time he/she returns to school in the fall. You are receiving this letter now so that you may notify the school if your child has already received the Meningitis vaccine(s), or to make arrangements for your child to receive the immunizations before the "rush" this summer. If your child has already received the vaccines please send an updated immunization record to school.

If your child has not already received the vaccines, please contact your child's doctor/clinic to schedule an appointment. The Health Department provides the vaccine either free or for a nominal charge for children without insurance or with Medicaid insurance. You may reach the Health Department at 946-7882 for additional information and their immunization clinic schedule.

Thank you for your prompt attention to this matter.

School Nurse Terrie Shaw Phone 513-728-4785

STUDENT _____ D.O.B. _____

Received his/her Meningococcal vaccines on:

First Dose: _____
(Date)

Second Dose (if needed): _____
