Quick Guide to ContentKeeper Internet Content Filter

1. What is ContentKeeper?

ContentKeeper is our district's new web filtering software designed to block content on the Internet according to Board Policy 4120/4220/4320 as well as the Children's Internet Protection Act (CIPA). CIPA requires schools to have a technology protection measure in place to ensure that sites containing images of inappropriate or harmful content are filtered for students on the computers they have access to.

2. How Does ContentKeeper Work?

Users will get a block page when attempting to access questionable content over the Internet. ContentKeeper will then direct them to a page (see below) where they can override the block. Only Staff Domain members have this capability. Students cannot override the filter.

3. To override the filter, click on the **LOGIN** button. A new dialog box will appear. Users will type in their username and password.

RESTRICTED

You have been restricted by the district's internet filter policy. In compliance with the Children's Internet Protection Act (CIPA) and Board Policy 4120/4220/4320, the Lennox School District filters Internet content to safeguard students from being subject to inappropriate material

URL: **poker.com**
URL Categories: **Gambling (Global)**
Policy: **Policy=default**
User: **auto_bypass**
User's IP: **10.100.3.100**
Timestamp: **Tue Apr 10 17:14:22 2018**

Acceptable Use Policy

The site you have requested has been blocked because it does not comply with the filtering requirements as described by the [Children's Internet Protection Act \(CIPA\)](#). If you need further Assistance Please Submit a work order through the following link: [SchoolDude](#)

4. Your username is your **first_last** example: **susana_garcia**
