SCHOOL DISTRICT

May 31, 2017

Dear Dennis Township School District Community,

Our school system is committed to protecting student, teacher, and staff health. To protect our community and be in compliance with the Department of Education regulations, the District tested our schools' drinking water for lead on April 15, 2017.

Results of our Testing

Following instructions given in technical guidance developed by the New Jersey Department of Environmental Protection, we completed a plumbing profile for each of the buildings within Dennis Township School District. Through this effort, we identified and tested all drinking water and food preparation outlets. Of the 52 samples taken, all tested below the lead action level established by the US Environmental Protection Agency for lead in drinking water (15 µg/l [ppb]).

For More Information

A copy of the test results is available in our business office for inspection by the public, including students, teachers, other school personnel, and parents, and can be viewed between the hours of 8:30 a.m. and 4:00 p.m. and are also available on our website at www.dtschools.org. For more information about water quality in our schools, contact Paige Sharp-Rumaker at the Dennis Township School District at 609-861-2821 ext. 112.

For more information on reducing lead exposure around your home and the health effects of lead, visit EPA's Web site at www.epa.gov/lead, call the National Lead Information Center at 800-424-LEAD, or contact your health care provider.

If you are concerned about lead exposure at this facility or in your home, you may want to ask your health care providers about testing children to determine levels of lead in their blood.

Sincerely,

A handwritten signature in blue ink that reads 'Paige Sharp-Rumaker'. The signature is written in a cursive style.
