

Huntington Beach City School District Learning Link

Our Vision:

The vision of the Learning Link is to work in partnership with our community to provide enriched and engaging opportunities for children and families to grow and develop together.

Toward our vision, we believe:

...all children are competent, capable, and intrinsically motivated learners

...a child's family members are their primary, and continuous educators

...children and adults learn through active and engaged participation in meaningful and relevant experiences

...collaboration and reflection are important tools in the development of authentic partnerships with children and families
