

Dear Parents:

Abbott ISD offers supplemental, voluntary accident insurance that covers students while at school and at extracurricular activities. High school football is covered as well, but as a separate package. The provider for this supplemental insurance is Health Special Risk Inc.

Student Insurance is **secondary** coverage to group or individual health plans. Students should file on their primary coverage and also submit a claim form to Health Special Risk.

More information for this insurance is available at the school's website at:
