

Career and Technical Education Improves Student Achievement in High School, College and Career

Parents play an important role in their children's college and career success.

Here's why you should encourage your child to participate in CTE.

My career tech class has enabled me to do something I love and opened my eyes to possibilities that are ahead —Kelsey McClure

I'm forever grateful to career tech. I have learned how to manage time and money, be more responsible and support myself while being reliable to other people. —Zachary Zigler
