February 2018

Dear Parent Education Families,

The South Bay Adult School is committed to a high quality Parent Education program that provides a developmental curriculum for children as well as providing adults with parenting techniques and ways to help their child become an active learner. Parent Education has been part of the South Bay community since 1952 and many of our teachers are proud graduates of the program.

It has always been our goal to keep our tuition rates reasonable and lower than other Parent Participation programs. Adult Education in California no longer supports Parent Education programs with state funding. Our program is now solely supported by parent fees. In order to keep pace with program costs and the change in state funding, the following tuition schedule will go into effect for classes starting September 2018. We will continue to offer the classes and choices we currently have for our families. The fee schedule shows the cost for classes based on the number of days per week.

Number of Meetings per week	Age of Child	Non Refundable Registration Fee	Tuition billed on:
			Sept. 1 Dec. 1 March 1
1	0-3 years	\$50	\$158 per term
