School Description

Robla School is part of the Robla School District, which consists of five elementary schools and one preschool program, serving over 2,000 students. The district is located within the City of Sacramento, northeast of the central city. The Robla School District was originally established as the Oak Grove School District in the early 1890s. The district's name was changed to Robla School District in 1916. Robla is a derivative of the Spanish word "roble" which means "cluster of British Oak trees." During the past school year, Robla School served nearly 500 students in transitional kindergarten through sixth grade on a traditional schedule.

Principal's Message: Welcome to Robla School, home of the Mustangs! We are proud of Robla School and welcome this opportunity to provide information about the school's instructional programs, academic achievement, resources, students, and staff.

We believe that belonging to a safe, caring learning community is central to fulfilling our mission to help children become knowledgeable, responsible and caring citizens. All students are important, accepted and respected. Our school motto is The Robla School Rises which means that in times of difficulty, we work hard, persevere and always give our best. The students are to also behave The Mustang Way which incorporates the 4R's. The 4R's are Respect, Responsibility, Really Safe and Ready to Learn.

We are fortunate to have dedicated and knowledgeable teachers, assistants, and support staff, eager to make a difference for our students. They have high expectations and an unshakable belief that all children deserve a rich elementary education. We are committed and take a professional approach to teaching a common core curriculum, providing lessons, assessments and report cards based on State Common Core Standards and educational research. When students have difficulty, we go to work to provide a plan for intervention and additional support.

Parents are our partners in discovering the special skills and talents of our students and guiding their learning to high standards. A special emphasis is placed on making all school contacts friendly and welcoming to the diverse families being served. We also have a PTC-Parent Teacher Club that supports the school with fundraising and many of our school functions. They are an integral partner which helps the everyday functioning and achievement of our school.

Our students thrive in the friendly, small school environment. Younger students have older class buddies and join in a variety of field trips, sports, drama and creative activities. Also, students explore environmental studies on our nearby bike trail. Opportunities to participate in leadership and community service throughout the year are coordinated by our Student Council.

District Vision Statement: Every student reaches their potential in a growth-minded environment rich in challenging practices and reflective learning for all.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2017-18)

Robla Elementary School District held a public hearing on September 7, 2017, and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements (Most Recent Year)

Robla School was originally constructed in 1896 and has since undergone complete modernization. Major additions to the site were constructed in the 1920s and 1950s, with the first major gutting and renovation of the grounds occurring in 1945. In 1989, all of the school's older classrooms were updated with new cabinetry and white boards. Carpets are replaced in all classrooms on a rotating basis. During the 2004-05 school year, six new classrooms were constructed to aid in class size reduction. During the summer of 2009, Robla School had the front loading/drop off zone reconstructed to relieve congestion which in turn made it safer for Robla families. The front zone also had an upgrade in the landscaping which made it a more beautiful and welcoming entrance. Also in the summer of 2009, Robla School had the two intermediate bathrooms completely modernized with new urinals, toilets and sinks. The campus is currently comprised of 22 classrooms (including portables), a library, one computer lab, one staff room, a cafeteria/multipurpose room, a kitchen, two playgrounds, the main office, and three administrative offices.

Cleaning Process: Robla School provides a safe and clean environment for students, staff, and volunteers. The district governing board has adopted cleaning standards for all schools in the district. Basic cleaning operations are performed on a daily basis throughout the school year with emphasis on classrooms and restrooms. A joint effort between students and staff helps keep the campus clean and litter-free. The Principal works daily with the custodial staff of three to develop cleaning schedules that ensure a clean, safe, and functional learning environment.

Maintenance & Repair: A scheduled maintenance program is administered by Robla School's custodial staff on a regular basis, with heavy maintenance functions occurring during vacation periods. Additionally, a scheduled maintenance program is administered by Robla Elementary School District to ensure that school grounds and facilities remain in excellent repair. A work order process is used when issues arise that require immediate attention. Emergency repairs are given the highest priority; repair requests are completed efficiently and in the order in which they are received.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

2016-17 CAASPP Results for All Students

* Science test results include CSTs, CMA, and CAPA in grades five, eight, and ten. The "Proficient or Advanced" is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores. Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

-Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

-Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2017-18)

Robla School District has a tremendous amount of parent and community support. Parents may participate at Robla School by volunteering in the classroom, chaperoning field trips, assisting with school activities, or sitting on committees such as the School Site Council.

The Robla Education Foundation, in partnership with the school community and local businesses, provides resources to support and enrich safe and effective education and social opportunities for children and families in the diverse Robla community.

Robla is also fortunate and privileged to have a Parent Teacher Club (PTC). Their main function is helping in school activities as well as fund-raising for needed resources here at Robla School. This partnership and type of community involvement will enhance the learning environment for all of our children.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

All visitors to Robla School must sign in at the office and wear a visitor's pass at all times. Supervision is provided to ensure the safety of each student before school, during breaks, at lunch and after school. Supervision is a responsibility shared between playground supervisors, parents, teachers, and the administration.

Robla School strives to maintain a safe, healthy, nurturing and orderly school campus that encourages positive attitudes in students and staff. The School Site Safety is reviewed annually and shared with all school community. Key elements of the plan focus on disaster and emergency preparedness, staff communication, and security on campus. Emergency drills are held on a regular basis: fire drills are held once a month, earthquake drills are held twice a year and lockdown drills are scheduled annually.

Professional Development provided for Teachers

The Professional Development in the Robla School District is a differentiated approach for teachers. Just as students in our classroom have different skill levels, our teachers have different needs in order to successfully implement the Common Core State Standards. With this in mind, the district established the following Professional Development strands all focused on CCSS:

- English Language Arts
- English Language Development
- Writing
- Mathematics
- Supporting Student Social-Emotional Development

Teachers consult with their principal and selected a strand for the upcoming school year. New teachers hired during summer months worked with their principal to select the appropriate strand as well. A differentiated approach such as this increases teacher support and recognizes individual needs.

Experts in each area were identified and were asked to develop a training plan. These experts facilitate each session, working closely with teachers to ensure that the focus of their work is tailored to the needs of the group. All strands include these focus areas:

- Common Core State Standards
- Technology Integration
- Rigor
- Active Student Engagement
- Sharing effective classroom approaches

Local Control Funding Formula funds have also been allocated to allow teachers to attend Professional Development activities outside of the Robla School District. Professional Educational Organizations, Educational Associations, and the Sacramento County Office of Education all offer a variety of opportunities for teachers to deepen their knowledge with CCSS. Teachers consult with their strand facilitators and their principals in order to identify those opportunities which meet their individual needs. The expectation is that those teachers who do attend out-of-district trainings will share their new knowledge with their colleagues at regular school site staff meetings.

Other optional Professional Development are offered each school year. These sessions are advertised throughout the Robla School District, and teachers choose to attend if they have a need or interest. Sessions focus on the following topics:

- Mathematics
- Writing
- Technology

In addition, teachers at each school site are given the opportunity to meet regularly with their grade level partners and specialist teachers to examine student benchmark assessment data, plan Common Core lessons, share resources and coordinate interventions for students who need them. These meetings are held after school during weeks when no general staff meeting is held.

A constructive evaluation process promotes quality instruction and is a fundamental element in a sound educational program. Evaluations and formal observations are designed to encourage common goals and to comply with the state's evaluation criteria and district policies. Temporary and probationary teachers are evaluated twice a year and tenured teachers are evaluated every other year. Teachers are evaluated on their performance of district adopted criteria. Evaluations are conducted by the principal, who has been trained and certified for competency to perform teacher evaluations. Evaluation criteria includes:

- Engaging and Supporting All Students in Learning
- Understanding and Organizing Subject Matter for Student Learning
- Assessing Student Learning
- Creating and Maintaining Effective Environments for Student Learning
- Planning Instruction and Designing Learning Experiences for All Students
- Developing as a Professional Educator

Staff members build teaching skills and concepts through participation in conferences and workshops throughout the year. For the past three years, the district has offered two staff development days. During this time, teachers are offered a broad-based variety of professional growth opportunities in curriculum, teaching strategies, and methodologies. For additional support in their profession, teachers may enlist the services of the district's Beginning Teacher Support and Assessment (BTSA) facilitator and/or the Peer Assistance and Review (PAR) program.

Types of Services Funded

English Learner (EL) students receive instruction in English Language Development (ELD) for an additional thirty minutes each day. Classroom instruction is supported by both Spanish and Hmong bilingual assistants. Special needs students are identified early and appropriate interventions are utilized by classroom teachers and school staff. Students who still exhibit difficulties are referred to the Student Study Team for consideration, which could include special education, counseling, and other alternative educational approaches. The school's Resource Specialist Program (RSP) and Special Day Classes provide educational options based on Individualized Educational Plan (IEP) that outline specific learning goals and objectives. Speech and Language therapy is provided by district specialists.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
