

Dear New Families,

Welcome to Monterey Hills School (MHS), the home of the Roadrunners. I am confident that you will soon feel right at home!

MHS is a school of excellence. Evidence is found in our California Distinguished School Awards, our CST scores, and the strength our K-5th grade students exhibit in writing skills. Our students are budding artists, scientists and strong mathematicians.

The MHS culture is one of inclusion. You'll find it amongst the parents and families in the neighborhood. You'll find it among the parents who volunteer in the classroom and on school-wide committees. You'll find it in the classrooms with students working with other students. Everyone on campus is an important member of the Roadrunner family.

The MHS road moves from dependence to independence to interdependence. Our goal is to prepare our students for the 21st Century as creative, cooperative, communicative, critical thinkers. These skills will ensure our students' independence but also help them become strong interdependent citizens working with others to make our world a better place.

We look forward to meeting and working with you and offering your child the experience of a Roadrunner!

Sincerely,

Dr. Laurie Narro
