

Classroom Times

Teacher: Western Hills Kindergarten Teachers

Date: April 12, 2018 (Week 29)

Look What We're Studying...

Look What We're Learning

In math, we learned more about the hundreds chart and using it to count by 2's, 5's and 10's. Identify a penny, nickel, dime, and quarter. Know each one's value. New challenge: put two coins out and have your child add the value up. Example: 1 nickel and 1 dime = .15, 2 quarters = .50.

Give your child short oral word problems with 10 being the maximum amount. Addition facts of +1, +2.

Ex: 3 5
 +2 +1

Superstars

Language Arts Review:

Read your child a story. Ask your child to retell the story. Be sure it is retold in the correct sequence.

Continue to write sentences making sure the beginning, middle and ending sounds are represented in each word.

Have your child write sentences reinforcing the need for capitalizing the first word and punctuation at the end of each sentence.

Read words with the silent e rule (an "e" at the end of the word makes the vowel before it say its name.

Read words that have 2 vowels together (rule: the first vowel does the talking and the second vowel does the walking.) Examples: bean, meat, goat

Reminder

Friday, April 13 – Early Release at 12:30

Tuesday, April 17 - Kindergarten Program at 5:45. Kindergartners need to be at school by 5:30.

Wednesday, April 18– Report cards- on Family Access
