School Accountability Report Card

The Board of Trustees recognizes its responsibility to inform parents/guardians and the community about the conditions, needs, and progress at each district school and to provide data by which parents/guardians can make meaningful comparisons between schools. The process of gathering and analyzing data also provides opportunities for school and district staff to review achievements and identify areas for improvement.

The Board shall annually issue a school accountability report card for each school site.

Such report cards shall be designed to inform parents/guardians and the community about conditions, needs and progress at each school and to help provide data by which parents/guardians can make meaningful comparisons between schools. The Board believes that the process of developing the report cards gives school staff opportunities to review achievements, identify areas for improvement, enlist local support and establish a vision for the future.

The Superintendent or designee shall maintain a process for developing annual report cards for each school site with input from all segments of the school community. The Superintendent or designee shall develop strategies for communicating the information contained in the cards to all stakeholders, including opportunities for staff and the community to discuss their content.

Notification

The Board shall publicize the issuance of school accountability report cards and notify parents/guardians that a copy will be provided upon request.

On or before February 1 of each year, the Superintendent or designee shall ensure that the information contained in the school accountability report card is accessible in paper copy and on the Internet and that the information is updated annually.
