

Rally for Increased Funding for Education Now!

Save the Date

Saturday, January 12

Oakland City Hall
(Frank Ogawa Plaza)

Noon

The East Bay Coalition for Public Education, a coalition of educators, families, students and community members ask for increased State funding for California public schools. California schools are among the lowest funded in the nation. Students in California deserve better than underfunded, stretched resources.

The time for action is now! Let the incoming Governor and Legislature know that students in California deserve better funded schools and demand a new day for California students and educators.
