

Collaboration Day, Sept. 30
ELD Teachers

The elementary ELD teachers met with the director to debrief this year's CELDT testing process, and possible solutions to getting the testing done faster in order to provide support services to students sooner. They discussed components to revise the reclassification criteria to include the new SBAC data and Fountas and Pinnell assessments at the appropriate grade levels. Dates were finalized for the committee to update the ELD Master Plan. Final preparations for the upcoming iPad distribution meeting took place and each teacher volunteered to provide a hands-on iPad lesson for parents.
