

PARENTAL INVOLVEMENT

The Edgecombe County Board of Education believes that the education of children should be a cooperative effort between parents and schools. The Title I program offers assistance to meet special educational needs of educationally and economically disadvantaged children according to federal guidelines. The Board believes that the involvement of Title I parents contributes significantly to the success of the children and increases the effectiveness of the program. To that end, the Board directs the Superintendent, his/her designees and each Title I school to plan and conduct activities designed to encourage parent participation.

Annually, parents/guardians of Title I children will be invited to a school meeting for the express purpose of informing them of the program and activities that occur in the school that are provided by Title I. Parent/guardian input shall be solicited in the planning, development, and operation of the school Title I program. Each school will provide opportunities for regular parent meetings and parent involvement activities.

The Edgecombe County Public School System will comply with all State and Federal requirements in developing, implementing, administering, and evaluating Federal Compensatory Education Programs.
