SUBJECT: Year 2013 Income Tax Changes and Withholding Information Effective January 1, 2013

**Federal and State Income Tax Withholding**

The annual federal withholding allowance for one allowance is \$3,900 for year 2013. The federal and state income tax withholding brackets have been revised for 2013.

**Employee Social Security/OASDI and Medicare**

The new employee rate for 2013 is 6.2 percent. The maximum wages subject to Social Security/OASDI in 2013 will be \$113,700. There is no Medicare wage cap for employees. Employee rates remain unchanged at 1.45 percent; however, the new Additional Medicare Tax for 2013 requires that employers withhold an additional 0.9 percent on wages paid to employees in excess of \$200,000 in a calendar year. This additional tax must be withheld in the pay period in which wages are paid in excess of \$200,000.

<b>Tax Summary</b>	<b>Year 2012</b>	<b>Year 2013</b>
Social Security/OASDI Rate	4.2 percent	6.2 percent
Medicare Rate	1.45 percent	1.45* percent
Social Security Maximum Wage Base	\$110,000	\$113,700
Medicare Maximum Wage Base	no limit	no limit
Maximum Medicare Contribution (1.45%)	no limit	no limit

\*Additional Medicare Tax = 0.9 percent for wages in excess of \$200,000 per year

**Federal Withholding – Form W-4**

You must file a new or amended *Form W-4*, “*Employee’s Withholding Allowance Certificate*,” if your filing status, exemption allowances or exempt status has changed since your last W-4 was filed. If you claimed exemption from withholding tax on your year 2012 *Form W-4*, you must file a new W-4 for year 2013 no later than February 18, 2013, if you want to continue to claim the exemption in 2013. If you no longer claim exempt status, you must file a new W-4 for January tax withholding.

**State Withholding – Form DE-4**

Unless you file a state *Form DE-4*, state tax withholding is based on your **federal** W-4. You may elect to have different federal and state exemption levels or claim state personal estimated withholding allowances by filing both forms..

## Tax Withholding – General Calculation Procedures

The following is provided as a general explanation of how tax withholding is calculated for a **basic payment situation**. An employee is being paid for the prime job only and for one pay period only, and the payment is made on the employee's prime cycle.

- Step 1: Determine *gross earnings* for the pay period.
- Step 2: Determine *salary reductions* for the pay period.
- Step 3: Subtract *salary reductions* from *gross earnings*. This result equals the *period taxable earnings*.
- Step 4: Multiply *period taxable earnings* by the calendar number of months (10, 11 or 12) of the job. The result equals federal/state *annual gross earnings*.
- Step 5: Calculate *annual taxes* from Step 4 using Tax *Tables A and B*. See reverse side.
- Step 6: Divide Step 5, *annual taxes*, by pay calendar months to arrive at taxes withheld for the pay period.

**IMPORTANT:** The calculation process above is a very basic sample. More complex situations include:

- Earnings for more than one assignment;
- Payments involving different pay periods or different calendars;
- Supplemental pay;
- Payments on cycles other than the prime cycle;
- Payments involving adjustments; and
- Payments using the flat-tax rate option for additional earnings
