

CABRI™ JR. BASICS: NAMING AND SAVING A FILE

ACTIVITY OVERVIEW:

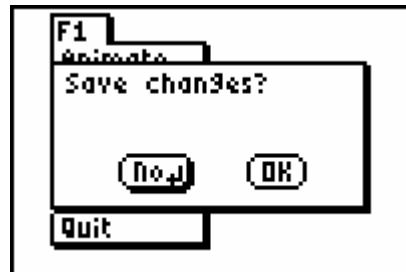

In this activity we will

- Access the Cabri™ Jr application
- Draw points from the F1 menu
- Name and save a file

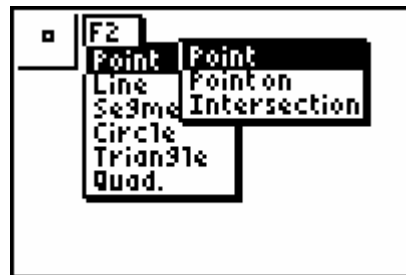

Turn the calculator ON and press **[APPS]**. Move down the list using **[↓]** until you find Cabri Jr. Press **[ENTER]** to select the application. (Or simply press the number to the left of Cabri Jr.)

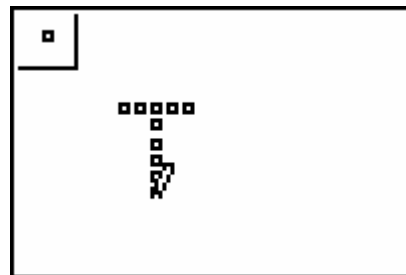

Press **[Y=]** for the F1 menu and select **New**. (If asked to **Save changes?** press **[←]** **[ENTER]** to choose “No.”)

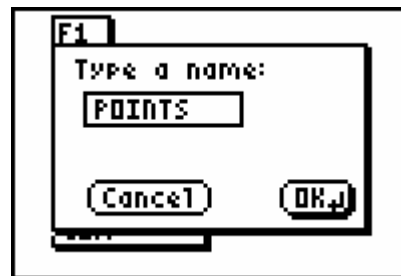

Press **[WINDOW]** for the F2 menu and move **[→]** then press **[ENTER]** for **Point**.

Move around the screen and press **[ENTER]** to mark some points.

Press $\boxed{Y=}$ for the F1 menu and move down to **Save** and press $\boxed{\text{ENTER}}$. Name the file POINTS by pressing the $\boxed{8}$ $\boxed{7}$ $\boxed{x^2}$ $\boxed{\text{LOG}}$ $\boxed{4}$ $\boxed{\text{LN}}$. (These are the keys with the *alpha* characters for the word POINTS.) Press $\boxed{\text{ENTER}}$ to save the file.

Exit the APP using F1 and selecting Quit, or by pressing $\boxed{2\text{nd}}$ $\boxed{\text{MODE}}$ for [QUIT].
