Grade Verification Form and Instructions

Listed below are the course(s) and grade(s) your student is eligible to transfer from middle school to high school. These grades reflect the Bishop Luers Unweighted Grading Scale.

Grades and credits, if chosen, will be added to the transcript **NOW** and will be counted in the Grade Point Average.

The grades and credits become a part of the official transcript and **MAY NOT** be removed from the official transcript at a later date.

The grades and credits **MAY NOT** be added at a later date. This is the only opportunity to add the middle school credits to the official transcript.

The grades and credits are for a full year of Math or for a full year of Language. Therefore, you may not add only one semester of a subject.

The grades and credits from middle school would count as **ELECTIVE CREDITS** toward the course requirements for graduation.

Use the information below to determine how the grades affect your student's GPA. To calculate the new Grade Point Average, add the grade points for the class that you are transferring in from the scale below to the total Grade points. Then add one credit for each of the added classes to the total credits. Divide the total Grade Points by the Total Credits to determine the new GPA.
