Official Statement

Regarding Threatening Comments at Academy High School

On February 22, 2018 Academy ISD received information that a high school student had potentially made threatening comments toward the school and or its students. The administration immediately investigated these potential comments. Working with local law enforcement, the district was able to ascertain the severity of the comments made. Administrative action was taken by the district and law enforcement will handle the case from this point. There was no immediate threat to any district campus or students. The district's top priority is the safety and security of its students and staff. We take any and all threatening comments seriously and they will be dealt with accordingly. The district would ask that parents partner with the district to ensure students understand that threatening comments made toward the district campuses, students or staff, whether verbal, written, or on social media platforms, will be dealt with swiftly, both administratively and in partnership with law enforcement.

Sincerely,

Kevin Sprinkles
Superintendent
