

In November 2006, Arcadia residents invested in the future of their schools with the passage of Measure I, the \$218M Neighborhood Schools, Health, Safety and Repair Measure. The community's support of Measure I recognizes that Arcadia's school facilities should match the reputation of our outstanding educational program and that our schools are one of Arcadia's most important assets.

The work will be accomplished in three phases with Phase 1 schools being Arcadia High School, First Avenue Middle School, Highland Oaks and Holly Avenue Elementary.

As residents begin to notice the more visible signs of construction at the sites, the District wants to once again *thank you for your support of your public schools.*
