Date	Class Name	Description	Time	Cost
June 20 & 21	App Inventor 	MIT App Inventor is a blocks-based programming tool that allows everyone, even novices, to start programming and build fully functional apps for Android devices.	9:00-2:30	\$90
June 20 & 21	Minifig Stop Motion Animation	Everything <u>is</u> awesome when you're making your own movies using Lego Minifigs. You'll have a chance to produce, write, direct, and even star in your own minifig mini movie. Once your movie is completed you'll render it and be able to take it home to share with your friends and family.	9:00-2:30	\$90
June 22 & 23	 Game Design with Gamestar Mechanic	Ever wonder what makes a good video game? This session will teach students how to use Gamestar Mechanic to learn how games work. Play some amazing games, then figure out what makes it fun and entertaining. Come join us as we learn the design components of games and what makes people want to play them.	9:00-2:30	\$90
June 22 & 23	littleBits: Program with Electronics!	In this session you'll use some of our new technology, littleBits Electronics, along with your creativity to build a maker project that can move, light up, make noises, and whatever else you can imagine!	9:00-2:30	\$90
June 22 & 23	Digital Media Production	Lights, Camera, Action! We will go through all of the steps to making your own movie using iPads and the iMovie app. From storyboarding ideas, shooting video, using a green screen, to editing it all together and adding a soundtrack, you will be an iMovie pro by the end of camp! <u>Note:</u> Campers can bring their own iOS device with the iMovie app if they would prefer to use their own device.	9:00-2:30	\$90 
June 22 & 23	3D Design with Tinkercad	Design, create your own toys, jewelry or Minecraft models with Tinkercad. Tinkercad is an easy, free 3D design program for all.	9:00-2:30	\$90
June 27 & 28	Game Design with GameStar Mechanic	Ever wonder what makes a good video game? This session will teach students how to use GameStar Mechanic to learn how games work. Play some amazing games, then figure out what makes it fun and entertaining. Come join us as we learn the design components of games and what makes people want to play them.	9:00-2:30	\$90
June 27 & 28	Introduction to HTML Coding 	Have you always wanted to create your own website, but didn't know where to start? Here's a chance to make your own site from scratch with HTML coding. Learn basic coding to add text, images, links, and more to your website.	9:00-2:30	\$90
June 27 & 28	Minifig Stop Motion Animation	Everything <u>is</u> awesome when you're making your own movies using Lego Minifigs. You'll have a chance to produce, write, direct, and even star in your own minifig mini movie. Once your movie is completed you'll render it and be able to take it home to share with your friends and family.	9:00-2:30	\$90 
June 29 & 30	App Inventor	MIT App Inventor is a blocks-based programming tool that allows everyone, even novices, to start programming and build fully functional apps for Android devices. Newcomers to App Inventor can have their first app up and running in an hour or less, and can program more complex apps in significantly less time than with more traditional, text-based languages.	9:00-2:30	\$90
June 29 & 30	littleBits: Program with Electronics!	In this session you'll use some of our new technology, littleBits Electronics, along with your creativity to build a maker project that can move, light up, make noises, and whatever else you can imagine!	9:00-2:30	\$90 
June 29 & 30	Clay Animation	Enter the world of digital animation! Learn how to plan your movie, create clay characters, and make a digital movie. You will be using a digital camera, clay, and software to create an animated movie that will be published on the internet. Unleash your inner creativity in this fun class! Campers can bring their own iOS devices with the Stop Motion Studio app if they prefer to use their own device.	9:00-2:30	\$90 
June 29 & 30	3D Design with Tinkercad 	Design, create your own toys, jewelry or Minecraft models with Tinkercad. Tinkercad is an easy, free 3D design program for all.	9:00-2:30	\$90
