Sister Clare Fitzgerald, SSND, Ph.D., is an international speaker and a recognized authority on Catholic education. She has taught at all levels of education including chair of American Studies Department at Fairfield University in Connecticut and 12 years as the founding director of the Catholic Leadership Program, Graduate School of Arts and Sciences, at Boston College.

Sister Clare is an inspiring speaker who challenges her listeners to live the Catholic Faith in contemporary life. "We have an alternative view of this life journey – there is eternal significance. Who is going to give you a better deal than a life with meaning and living forever than Jesus Christ? We must teach our young people that life is a journey home to God," stated Sister Clare in a recent presentation.
