

Business and Noninstructional Operations

Transportation Safety And Emergencies

Each day, prior to driving a school bus, each school bus driver shall inspect the bus to ensure that it is in safe operating condition and equipped as required by law and that all equipment is in good working order. At the completion of each day's work, the driver shall prepare and sign a written report of the condition of the equipment listed in 13 CCR 1215, including any defect or deficiency discovered by or reported to him/her which would affect safe operation or result in mechanical breakdown of the bus, or indicating that no defect or deficiency was discovered or reported. Any defect or deficiency that would affect safe operation shall be repaired prior to operating the bus. (13 CCR 1215)

In the event of a school bus accident, the driver shall immediately notify the California Highway Patrol, the Superintendent or designee. The driver shall not leave the immediate vicinity of the bus to seek aid unless necessary. (13 CCR 1219)

The Superintendent or designee shall review all investigations of bus incidents and accidents to develop preventative measures.

Passenger Restraint Systems

The Superintendent or designee shall ensure that any school bus or student activity bus which is purchased or leased by the District is equipped with a combination pelvic and upper torso passenger restraint system at all designated seating positions if that bus: (Vehicle Code 27316, 27316.5; 13 CCR 1201)

1. Is a Type 1 school bus manufactured on or after July 1, 2005, which is designed for carrying more than 16 passengers and the driver
2. Is a Type 2 school bus or student activity bus manufactured on or after July 1, 2004, which meets one of the following criteria:
 - a. Is designed for carrying 16 or fewer passengers and the driver
 - b. Has a manufacturer's vehicle weight rating of 10,000 pounds or less and is designed for carrying not more than 20 passengers and the driver

When a school bus or student activity bus is equipped with a passenger restraint system, all passengers shall use the passenger restraint system. (5 CCR 14105)

Bus drivers shall be instructed regarding procedures to enforce the proper use of the passenger restraint system. Students who fail to follow instructions of the bus driver may be subject to discipline, including suspension of riding privileges, in accordance with Board policy and administrative regulations.

Business and Noninstructional Operations

Transportation Safety And Emergencies

Fire Extinguishers

Each school bus shall be equipped with at least one fire extinguisher located in the driver's compartment, which meets the standards specified in law. In addition, a wheelchair school bus shall have another fire extinguisher placed at the wheelchair loading door or emergency exit. All fire extinguishers shall be regularly inspected and serviced in accordance with regulations adopted by the State Fire Marshal. (Education Code 39838; 13 CCR 1242; 19 CCR 574-575.3)

Electronic Communications Devices

A bus driver shall not drive a school bus or student activity bus while using a wireless telephone, except under the following conditions: (Vehicle Code 23123, 23125)

1. For emergency purposes, including, but not limited to, a call to a law enforcement agency, health care provider, fire department, or other emergency service agency or entity

Safe Bus Operations

School buses and student activity buses shall not be operated whenever the number of passengers exceeds bus seating capacity, except when necessary in emergency situations which require that individuals be transported immediately to ensure their safety. (Education Code 39834)

School bus operations shall be limited when atmospheric conditions reduce visibility on the roadway to 200 feet or less during regular home-to-school transportation service. Bus drivers for school activity trips may discontinue bus operation whenever they determine that it is unsafe to continue operation because of reduced visibility. (Vehicle Code 34501.6)

Unauthorized Entry

The Superintendent or designee may place a notice at bus entrances that warns against unauthorized entry. The driver or another school official may order any person to disembark if that person enters a bus without prior authorization. (Education Code 39842; 13 CCR 1256.5)

Transportation Safety Plan for Boarding and Exiting Buses

The Superintendent or designee shall develop a transportation safety plan containing procedures for school personnel to follow to ensure the safe transport of students. The plan shall include all of the following: (Education Code 39831.3)

1. Procedures for determining if students in grades prekindergarten through 8 require an escort to cross a private road or highway at a bus stop pursuant to Vehicle Code 22112
2. Procedures for all students in grades prekindergarten through 8 to follow as they board and exit the bus at their bus stops

Business and Noninstructional Operations

Transportation Safety And Emergencies

3. Procedures for boarding and exiting a school bus at a school or other trip destination

A copy of the plan shall be kept at each school site and made available upon request to the California Highway Patrol. (Education Code 39831.3)

Parental Notifications

The Superintendent or designee shall provide written safety information to the parents/guardians of all students in grades prekindergarten through 6 who have not previously been transported in a school bus or student activity bus. This information shall be provided upon registration and shall contain: (Education Code 39831.5)

1. A list of school bus stops near each student's home
2. General rules of conduct at school bus loading zones
3. Red light crossing instructions
4. A description of the school bus danger zone
5. Instructions for safety while walking to and from school bus stops

Student Instruction

Students who are transported in a school bus or student activity bus shall receive instruction in school bus emergency procedures and passenger safety as follows: (Education Code 39831.5; 5 CCR 14102)

1. Each year, all students who receive home-to-school transportation in a school bus shall be provided appropriate instruction in safe riding practices and emergency evacuation drills.
2. At least once each school year, all students in grades prekindergarten through 8 who receive home-to-school transportation shall receive safety instruction, which includes, but is not limited to:
 - a. Proper loading and unloading procedures, including escorting by the driver
 - b. How to safely cross the street, highway, or private road
 - c. In school buses with passenger restraint systems, instruction in the use of such systems as specified in 5 CCR 14105, including, but not limited to, the proper fastening and release of the passenger restraint system, acceptable placement of passenger restraint systems on students, times at which the passenger restraint systems should be fastened and released, and acceptable placement of the passenger restraint systems when not in use
 - d. Proper passenger conduct
 - e. Bus evacuation procedures
 - f. Location of emergency equipment

As part of this instruction, students shall evacuate the school bus through emergency exit doors. Instruction also may include responsibilities of passengers seated next to an emergency exit.

Business and Noninstructional Operations

Transportation Safety And Emergencies

Each time the above instruction is given the following information shall be documented:

- a. District name
- b. School name and location
- c. Date of instruction
- d. Names of supervising adults
- e. Number of students participating
- f. Grade levels of students
- g. Subjects covered in instruction
- h. Amount of time taken for instruction
- i. Bus driver's name
- j. Bus number
- k. Additional remarks

This documentation shall be kept on file at the District office or the school for one year and shall be available for inspection by the California Highway Patrol.

3. Before departing on a school activity trip, all students riding on a school bus or student activity bus shall receive safety instruction, which includes, but is not limited to, the location of emergency exits and the location and use of emergency equipment. This instruction also may include responsibilities of passengers seated next to an emergency exit.
