*In the month of October we had 49 students who fell under the far below basic range in attendance. We saw a decrease in November with only 39 students falling in that attendance range. 309 students have maintained proficient/advanced attendance (96% or higher), for both the month of October and November. My goal is to increase and maintain the number of students who are meeting the attendance goal for LAUSD. * The numbers in this data only reflects students currently enrolled*
