URGENT!! PARENTS PLEASE READ

Dear Parent/Guardian,

The Ohio Department of Health has an immunization requirement for all students entering the twelfth grade. All twelfth grade students will now be required to have a **2nd** meningococcal immunization prior to entering the twelfth grade.

Many students may have already received the required immunization. Please check with your child's health care provider. If your child has received the immunization, have the physician sign and then fax or mail the documentation to the Fairfield High School Nurse *as soon as possible*. You may use the form on the back of this letter for documentation purposes, as long as the health care provider has signed it. All official vaccination records signed by the health care provider will also be accepted.

If your child has **NOT** received the required immunization, please make an appointment for your child to do so *as soon as possible*. This information must be sent to Nina Rose, Fairfield High School Nurse, **no later than May 15, 2016**.

Any student with **NO** documentation of receiving the **2nd** immunization on file **will be excluded from entering the twelfth grade**.

Please share the information on the back of this letter with your child's physician or health clinic. If you have no current physician or health care provider, you may call the Primary Health Solutions at 513-454-1111 or contact them at www.myprimaryhealthsolutions.org and schedule an appointment to receive the required immunization. The completed forms should be returned to Nina Rose, Fairfield High School Nurse.

Please feel free to contact me with any questions/concerns. You may contact me by phone at 513-942-2999, ext. 104, fax 513-942-3288 or email Rose_n@fairfieldcityschools.com.

Sincerely,

Nina Rose, RN
Fairfield High School
