

CASSY is here to help.

For the past three years, CASSY has partnered with Fisher Middle School to provide professional mental health services to all enrolled students and their families at no charge. We have placed a therapist onsite 25 hours each week to provide direct counseling and crisis support to all students.

OUR SERVICES

- **Ongoing Student Counseling** - We provide individual, family and group counseling sessions on-campus during school hours.
- **Crisis Intervention and Treatment** - Sometimes a traumatic event affects the entire student body. During a school-wide crisis, CASSY proactively identifies those in need and initiates ongoing grief counseling.
- **Confidential Parent Consultation** - Our therapists are experts in dealing with adolescent behaviors and issues. We offer parents confidential consultations, help them distinguish between normal and risky behaviors, and secure additional support when needed.
- **Community Outreach** - We make presentations to the parent community about raising healthy adolescents. Educational topics include mental health issues such as suicide prevention, teen depression, drug and alcohol prevention and reducing risky behaviors.
