

## PHILOSOPHY-GOALS-OBJECTIVES AND COMPREHENSIVE PLANS

### **Accountability**

The Board of Trustees has a responsibility to continually reexamine district programs and practices to determine their effectiveness in serving all students. Review and evaluation procedures shall provide a mechanism for ensuring accountability to parents/guardians and the community.

To enable the Board to fulfill these responsibilities, the Superintendent or designee shall identify and/or develop appropriate measures to ensure accountability. These measures shall be integrated and consistent with the state's accountability system and may include, but not be limited to, measures to evaluate student achievement, parent/guardian involvement and other district goals.

The Superintendent or designee shall regularly report to the Board regarding progress toward the District's vision/direction and goals and the implementation of comprehensive plans.

Ongoing district processes, such as the Board's evaluation of the Superintendent and the Five-Year Plan process, policy reviews, curriculum adoption, budget adoption and staff development program, shall also be used to support district progress towards achieving the vision/direction.

Opportunities for feedback from students, parents/guardians, staff and community members shall be made available as part of the District's review and evaluation process.

Evaluation results may be used as a basis for implementing programmatic changes, determining the need for additional support or assistance, awarding incentives or rewards, and establishing other performance-based consequences.

Evaluation results shall be reported to parents/guardians and the community.

As soon as results are made available by the California Department of Education, the Board shall, at a regularly scheduled meeting, discuss the results of each school's annual ranking on the statewide Academic Performance Index.
