

## 4<sup>TH</sup> GRADE NEWS

### COLTEN

On August 25, 2017, some fellow reporters and I went to the fourth grade classrooms to see what they're doing. Here's what one fourth grader, Colten said when I asked him what they were doing he said, "Mostly Texas history, and I some writing to prepare for the STAAR test". Next I asked him what his favorite thing about fourth grade was he said, "It had to be the teachers!" After that, I asked him what his least favorite thing about fourth grade was, he said "Math because I'm not very good at it." (He said jokingly).

**Ned, the friendly Aurora Alien**  
or **The AURORA MYSTERY** by  
Shelbie, Madison, & Natalee

This famous alien has many friends in Aurora, but not that many people around the country know the story of the famous alien. It happened in Aurora, Texas in 1897. Aurora is located 5 minutes north of Boyd. The time of day was 6:00am. The early risers of Aurora saw it. At around 6am, witnesses reported seeing a UFO (Unidentified Flying Object) crash into the judge's windmill and land in the field. According to scientists, who named the only passenger aboard, Ned, the space craft crashed because some to the machinery seemed to be broken. Ned, the alien, was taken to the Aurora Cemetery and buried and is buried there now. There is more info located online if you would like to know more. That's all we know about the Aurora alien mystery. We hope you have enjoyed our column in the BIS News.

Well you'll find out in the BIS News! He has a wife and two children, a boy and a girl. He also has three brothers. His ancestry leads to Cajun French. He likes watching TV and playing with his kids and his dogs in his free time. Has anyone ever thought when our principal graduated high school? Well now you will know. It was from Orangefield High School, Texas in 2000. We asked Mr. Bourgeois how long he has wanted to be a principal and his answer is very unique.
