

Nothing could **eclipse** the excitement of students, parents, and teachers on the first day of school except for... a **solar eclipse**. **What an amazing way to start off the year!**

But now that we're rolling into September, is **the 1st Day of School Glow gone?** Has the excitement disappeared now that the kids are settling in back into school mode?

Well, the PTO Board is here to motivate you! We're just getting started and have been busy setting things in motion and getting ready for the year to come.

As we all transition from Summer to Fall, **let's celebrate both the wondrous and the routine, and keep the momentum going!**
