

Las Vegas High School Gear Up

Nevada Gear Up is a program designed to improve awareness of undergraduate programs by mentoring students through academic and mentoring services. It provides motivation to students through college campus tours, industrial visits, tutoring, FAFSA workshops, and pays for a variety of students needs like college application fees. Working with teachers and parents as well, Gear Up allows school wide training and workshops to assist students further.

**This is the main Nevada [Gear Up Website](#) through NDE
Gear Up [google calendar](#) where we post our events for LVHS**

Most of our events consist of:

Robotics: Every Tuesday in Ms. Woodruff's room
