LOMBARD ELEMENTARY SCHOOL DISTRICT 44 LOMBARD, ILLINOIS

PHYSICAL EDUCATION PROGRAM AUTHORIZATION

Although District 44 requests academic and health records from the school previously attended by your child, it may take several weeks before such records are received. Therefore, we request that you sign below so that your child may participate in our Physical Education Program if your child has not had physical activities curtailed by a physician. Please understand that if your child is transferring from another state, a new physical examination is required and must be received within 30 days of transfer.

I understand that the Illinois School Code requires a physical examination to be furnished to school authorities. Until the school receives health records with a physical examination signed by a doctor,

_____ has my permission to participate in a full Physical
(child's name)

Education Program. In so stipulating, I confirm that he/she is free from any physical condition which would make such activity hazardous or injurious to his/her well-being and health. I further confirm that to my knowledge he/she is free of any chronic or limiting condition.
